# Answer Sheet — Exam 1DL201 of 2016-12-20

**Instructions:** Using a **dark** color, fill in **at most one** answer box (A to E) per question. Fill the answer box **entirely** (■)—we will use an optical character recognition (OCR) system that may not recognize ticks, crosses, circles, etc.

  If you think that a question is ambiguous or has no correct answer, mark the question number with a ★ and explain **on the backside of this sheet** what the problem is and what assumptions you have made to answer the question.

  Transfer your answers from the question sheets to this answer sheet **just before handing in**. If you want to change an answer, then please request a new answer sheet. You may keep the question sheets; at the end of the exam, **only hand in this answer sheet**.

  Also fill in your **exam code** in clear handwriting at the bottom of this page.
